Mr. Steven H. Gunderson
Rocky Flats Cleanup Agreement Project Coordinator
Colorado Department of Public Health and Environment
4300 Cherry Creek Drive South
Denver, CO 80222-1530

Dear Mr. Gunderson:

Please find enclosed the Pre-demolition Survey Report for most of Building 886; it is submitted for your approval. This letter formally covers the previously transmitted data concerning phase one of the project, which is not enclosed. The data and report enclosed covers the contaminated portion of the building about to undergo demolition. Small portions of the building remain contaminated and will be removed as delineated in the enclosure. The contaminated parts are some pipes and drains, the portion of protected floor remaining in Room 101, and a piece of buried duct. The floor in Room 103 pit will be monitored during removal to validate the fact that cracks around the perimeter of the pit floor are not radiologically contaminated.

Please expedite review of this submission as the project is currently awaiting approval to finish demolition of the building. Questions can be directed to Steve Tower at (303) 966-2133.

Sincerely,

Joseph A. Legare
Assistant Manager
for Environment and Stewardship
